2 The New Classic

Sinuous and fluid, the lines of this soaker by Marcel Wanders speak to the charm of an old-world clawfoot, but in a modern language. Available mid-2019.

Materials Sentec

3 Immersion

Deeper than a standard tub but taking up less floor space, Immersion by Neri&Hu Design and Research Office positions the bather more upright than reclined – a gesture that nods to traditional wooden bathing vessels in China and Japan.

Manufacturer Agape, agapedesign.it

4 Eldon

Conran + Partners designed this semi-rounded wall-mounted tub for both hospitality and residential settings. A back ledge is suitable for deck mounting and serves as easy-to-reach storage.
